MEDICAL DEVICE SALES & BUSINESS DEVELOPMENT

Mohsin Almanami

RESPIRATORY · CRITICAL CARE · SLEEP · EMERGENCY CARE

Medical Technology Specialist bridging clinical practice and medical device sales.

+973 3674 0464 | mj.almanami@gmail.com | LinkedIn

Clinical grounding

Background in Respiratory Care Technology with ICU clinical training; works with physicians on ventilation and therapy selection.

Revived a dormant line

Took over an inactive AED portfolio and built recurring sales across government, sport and industry.

Senior stakeholder reach

From ICU teams and hospital leadership to ministry officials at ministerial level.

PROFILE

Bahraini medical technology specialist with a background in Respiratory Care Technology; clinical training at the Critical Care Center (Prof. Sherif Mokhtar Unit), Kasr Al Ainy, and an ICU attachment at Salmaniya Medical Complex. At Skype Medical I sold ventilation, sleep and oxygen therapy solutions to hospitals and home-care patients, working closely with the prescribing physicians. I manage the full cycle from first meeting to tender file and signed agreement, and continue to support the account after installation.

KEY ACHIEVEMENTS

- Revived Skype Medical's inactive AED line through awareness sessions, demonstrations and financing options, **building regular sales** to government, sports clubs and industry.
- Built a pipeline of **government AED and CPAP tender opportunities**, including a proposed national deployment plan prepared with the relevant decision-makers.
- Proposed the AED partnership with the **Life Pulse** volunteer team, wrote the MoU and saw it through to signing and delivery.
- Prepared the establishment dossier for **Total Care Medical Home**, a post-ICU home-care company, for two of Bahrain's senior intensive care consultants.

MEDICAL DEVICE EXPERIENCE

Medical Technology Specialist

2024 – 2025

SKYPE MEDICAL EQUIPMENT CO. · BAHRAIN

LINE 1 Respiratory · Breas (Sweden)

Portfolio	Breas Vivo 3, Vivo 45 LS and Vivo 65 ventilators, ClearWay 2 airway clearance and oxygen concentrators.
Hospitals	Ran demonstrations and live workshops for ICU, pulmonology, respiratory and nursing teams at Salmaniya Medical Complex, BDF Hospital, MKCC, Bahrain Specialist Hospital and Ibn Al-Nafees. Established working relationships with hospitals, clinics and private centres across Bahrain's sleep medicine, pulmonology and critical care sectors.
Patients	Sold directly and through a physician referral network; installed devices, performed mask fitting and educated patients and families on safe daily use.

LINE 2 Sleep medicine · SOMNOmedics (Germany)

Home testing	Fitted and retrieved home sleep testing devices, and coordinated results with sleep physicians.
Solutions	Full range of OSA therapy: CPAP, APAP and BiPAP, mandibular advancement devices, and positional therapy pillows; matched each patient to the right option with the physician.

LINE 3 AED & Emergency Care · PRIMEDIC (Germany)

Government	Met ministers, undersecretaries and assistant undersecretaries at the Ministries of Health, Interior, Education, Youth & Sports, Electricity & Water, and Transportation & Telecommunications. For the Ministry of Interior, advised on technical specifications and secured customised units from the manufacturer.
Sports	Raised AED awareness with the Ministry of Youth & Sports and the office of HH Shaikh Khalid bin Hamad Al Khalifa. Once AEDs became mandatory in sports clubs, visited clubs across Bahrain with demos and financing options.
Industry	Presented to decision-makers at Alba, Bapco, GPIC and leading industrial companies; closed AED sales with industrial clients.
Community	With Life Pulse, placed AEDs at large public gatherings and ran certified CPR/AED training. Device partner in the Hayat Plus team (MOI Civil Defence), among the winners of HRH the Crown Prince's "Fikra" competition (2024).

ACROSS ALL LINES

Partnerships	Built B2B partnerships and contracts with hospitals, clinics and healthcare institutions across Bahrain (details confidential).
Deal desk	Tender files, proposals with financing options (trial, rental, revenue share), contracts and MoUs.

CAREER PATH

2015 — Retail & service
First customer-facing roles

2019 — Al Karam Land
Co-founded a trading business

2021 — ICU platform
Started building it

2022 — BSc, MUST
Respiratory Care Technology

2023 — Salmaniya ICU
Clinical attachment

2024 — Skype Medical
Medical Technology Specialist

2026 — Total Care
Post-ICU home care

VENTURES & PROJECTS

Founder · Rexos | Critical Care Intelligence

2021 – Present

INDEPENDENT RESEARCH & DEVELOPMENT PROJECT

AI-assisted clinical decision support for intensive care. Developed guideline-based clinical reasoning algorithms and a structured daily review method, built into a working platform with 164 audited calculators and scores, medication safety checks and daily reports. Every value traces to its published source; every recommendation needs physician sign-off. Tested on simulated cases.

Author of "The ICU Equations": 300 adult ICU formulas, calculations and scores, each with a worked example and its published source, plus companion Excel calculators.

Business Setup & Strategy Lead

2026

TOTAL CARE MEDICAL HOME · POST-ICU HOME HEALTHCARE · PROJECT-BASED

Wrote the feasibility study, business plan and business model, the operating policies and procedures, and built the partner network.

Co-founder

2019 – 2023

AL KARAM LAND GENERAL TRADING · FAMILY BUSINESS

Sourcing, supplier negotiation, pricing and import. Handed over to the family on starting the clinical attachment.

EARLY CAREER

Customer-facing sales and service

2015 – 2018

Retail sales and customer service alongside my studies: Al Kiram Cold Store (2015 – 2016), remote client coordination in Egypt for Bahraini travel and student placement agencies (2017 – 2018), and LC Waikiki, Seef (2018).

EDUCATION & TRAINING

2022	**BSc Applied Medical Sciences, Respiratory Care Technology** · College of Applied Health Sciences Technology (formerly Applied Medical Sciences), Misr University for Science & Technology (MUST)
Research project	**Innovation and technology in respiratory care**: remote monitoring, digital tools and clinical decision support
During BSc	**Clinical rotations** at the Critical Care Center (Prof. Sherif Mokhtar Unit), Kasr Al Ainy, Cairo University, and Souad Kafafi University Hospital · **Sleep medicine**, Bahrain Medical Sleep Lab
2023	**Clinical Attachment** · Intensive Care Unit, Salmaniya Medical Complex

SKILLS

Sales	Full sales cycle · Account planning · Market & needs analysis · Feasibility studies · Supplier negotiation · Pricing & financing · Proposals · Tender files · Contracts & MoUs · Live demos · Objection handling · Closing · B2B partnerships · Key account management
Clinical	Mechanical ventilation · NIV, CPAP, APAP, BiPAP · Mask fitting · Patient education · Airway clearance · Oxygen therapy · AEDs
Clinical platforms	Hands-on experience with Hamilton, Dräger, Philips, ResMed and Mindray ventilation and NIV systems, alongside Breas
AI & digital	Clinical decision-support design · Clinical data modelling · AI-assisted analysis and reporting · Workflow automation for sales and operations

LEADERSHIP & PERSONAL

In Egypt	Administrative member, Bahraini Students Union, Cultural Attaché's Office, Embassy of the Kingdom of Bahrain in Egypt
University	Student Council, College of Applied Medical Sciences, MUST
Secondary school	Student Council · Bahrain Scouts · national student associations
Certifications	**BLS Provider**, Saudi Heart Association · Professional First Aid · ICDL
Languages	**Arabic** native · **English** professional working proficiency · **Hindi** basic · Bahraini · married · own car

Portfolio

IN THE FIELD · 03 / 04

HOW I WORK

Most of my work happens in meeting rooms with the people who approve the budget: ministry officials, hospital managers and safety heads at industrial companies. I bring the device, run the demonstration and stay on it until the agreement is signed and the units are delivered.

MINISTRY OF INTERIOR · CIVIL DEFENCE

01 Crisis & Disaster Management Directorate

MINISTRY OF TRANSPORTATION & TELECOMMUNICATIONS

02 AED deployment proposal for ports and airports

MINISTRY OF HEALTH

03 Presentation to Government Hospitals management

04 AED partnership, signed and delivered

05 Booth management and lead generation

INDUSTRIAL KEY ACCOUNTS

06 Decision-maker presentations to Alba, Bapco, GPIC and leading industrial companies

MOHSIN ALMANAMI

Selected institutions I've engaged with

A selection of the hospitals, clinics, government bodies and companies I've visited, presented to or worked alongside.
