Mohsin Almanami

Medical Technology Specialist | Respiratory Care, Sleep Medicine and Critical Care

Manama, Kingdom of Bahrain | +973 3674 0464 | mj.almanami@gmail.com
linkedin.com/in/mohsin-almanami

PROFESSIONAL SUMMARY

Bahraini Medical Technology Specialist with a background in Respiratory Care Technology, clinical training at the Critical Care Center (Prof. Sherif Mokhtar Unit), Kasr Al Ainy, and an ICU clinical attachment at Salmaniya Medical Complex. Experienced in selling ventilation, sleep and oxygen therapy and AED solutions to hospitals, government bodies and home-care patients in Bahrain, working closely with prescribing physicians. Manages the full sales cycle from first meeting to tender file and signed agreement, and continues to support the account after installation.

KEY ACHIEVEMENTS

- Revived Skype Medical's inactive AED line through awareness sessions, demonstrations and financing options, building regular sales to government, sports clubs and industry.
- Built a pipeline of government AED and CPAP tender opportunities, including a proposed national deployment plan prepared with the relevant decision-makers.
- Proposed the AED partnership with the Life Pulse volunteer team, wrote the MoU and saw it through to signing and delivery.
- Prepared the establishment dossier for Total Care Medical Home, a post-ICU home-care company, for two of Bahrain's senior intensive care consultants.

PROFESSIONAL EXPERIENCE

Medical Technology Specialist 2024 – 2025

Skype Medical Equipment Co., Bahrain

- Respiratory (Breas, Sweden): sold Vivo 3, Vivo 45 LS and Vivo 65 ventilators, ClearWay 2 airway clearance and oxygen concentrators.
- Ran demonstrations and live workshops for ICU, pulmonology, respiratory and nursing teams at Salmaniya Medical Complex, BDF Hospital, Mohammed bin Khalifa Cardiac Centre, Bahrain Specialist Hospital and Ibn Al-Nafees Hospital.
- Home care: sold directly and through a physician referral network; installed devices, performed mask fitting and educated patients and families on safe daily use.
- Sleep medicine (SOMNOmedics, Germany): fitted and retrieved home sleep testing devices and coordinated results with sleep physicians.
- OSA therapy: CPAP, APAP and BiPAP, mandibular advancement devices and positional therapy; matched each patient to the right option with the physician.
- AED and emergency care (PRIMEDIC, Germany): met ministers, undersecretaries and assistant undersecretaries at six ministries; advised the Ministry of Interior on technical specifications and secured customised units from the manufacturer.
- Raised AED awareness with the Ministry of Youth and Sports; after AEDs became mandatory in sports clubs, visited clubs across Bahrain with demonstrations and financing options.
- Presented to decision-makers at Alba, Bapco and GPIC, and closed AED sales with industrial clients.
- Prepared tender files, proposals with financing options (trial, rental, revenue share), contracts and MoUs; ran the company stand at the 3rd Bahrain Heart Conference.
- Device partner in the Hayat Plus team (MOI Civil Defence), among the winners of HRH the Crown Prince's Fikra competition (2024).

Business Setup and Strategy Lead (project-based) 2026

Total Care Medical Home, Bahrain

- Wrote the feasibility study, business plan and business model, and the operating policies and procedures for a post-ICU home healthcare company; built the partner network.

Co-founder 2019 – 2023

Al Karam Land General Trading (family business), Bahrain

- Sourcing, supplier negotiation, pricing and import. Handed over to the family on starting the clinical attachment.

Retail Sales and Customer Service 2015 – 2018

Al Kiram Cold Store; LC Waikiki; travel and student placement agencies, Bahrain and Egypt

- Customer-facing sales and client coordination alongside university studies.

RESEARCH AND DEVELOPMENT PROJECTS

Founder, Rexos | Critical Care Intelligence 2021 – Present

Independent research and development project

AI-assisted clinical decision support for intensive care. Developed guideline-based clinical reasoning algorithms and a structured daily review method, built into a working platform with 164 audited calculators and scores, medication safety checks and daily reports. Every value traces to its cited source; every recommendation needs physician sign-off. Tested on simulated cases.

Author, The ICU Equations 2026

Clinical reference book

300 adult ICU formulas, calculations and scores, each with a worked example and its cited source, plus companion Excel calculators.

EDUCATION AND CLINICAL TRAINING

BSc, College of Applied Health Sciences Technology 2022

Misr University for Science and Technology (MUST), background in Respiratory Care Technology

- Graduation research: innovation and technology in respiratory care, covering remote monitoring, digital tools and clinical decision support.
- Clinical rotations at the Critical Care Center (Prof. Sherif Mokhtar Unit), Kasr Al Ainy, Faculty of Medicine, Cairo University, and at Souad Kafafi University Hospital; sleep medicine at Bahrain Medical Sleep Lab.

Clinical Attachment, Intensive Care Unit 2023

Salmaniya Medical Complex
